SPECIALTY SOAP TEMPLATE

OB/GYN (prenatal)

PRACTICE CASE / ID | DATE | SETTING

Two patients at once: the pregnant patient and the pregnancy. Gestational age frames everything.

WHAT MATTERS MOST

- G/P (GTPAL), LMP, estimated due date and gestational age
- Warning symptoms: bleeding, leaking fluid, contractions, decreased movement
- Blood pressure, fundal height, fetal heart tones
- Plan matched to the trimester

OFTEN MISSED

- Gestational age in the one-liner
- Asking about all four warning symptoms
- Labs and tests due at this gestational age

S SUBJECTIVE

ID Age, G_P____, gestational age by LMP or ultrasound.

Concerns

Pregnancy symptoms Bleeding, leaking fluid, contractions, fetal movement (after ~20 weeks).
